SCHOLARSHIP REPORTS OF FRATERNITIES, SORORITIES, AND HOUSE CLUBS

The average scholarship grade at the University of California during the semester August to December, 1921, was 2.9320 for undergraduate fraternity and house club men, and 2.5179 for undergraduate sorority and house club women. On account of the changes in the grading system at the University, it is not possible to compare this figure with the scholarship standings of previous years. With the introduction of four passing grades instead of three the index number is larger than formerly.

The standing of each organization is computed by adding the number of units of grade "A," twice the number of units of grade "B," three times the number of units of grade "C," etc., up to six times the number of units for grade "F" and dividing the sum of these products by the total number of units. "Incomplete" is rated as equivalent to grade "E" and units for which grade "Passed" have been assigned are disregarded entirely.

Following are the comparative standings for the fraternities and house clubs:

Rank by average grade	*Average grade*
1. Timbram	2.0990
2. Delphic	2.4236
